

GLOVE BOX HOLDERS

Along with a full line of quality examination gloves, Adenna also supplies these space-saving, easy-to-hold and cost effective glove box holders. They are simple to install on a wall or flat surface for easy dispensing of gloves, and elimination of clutter in work area.

CLEAR GLOVE BOX HOLDER BHC601

The **BHC601** is made of a durable, high impact-resistant, transparent plastic material with a "fitted" design to hold various sizes of dispensing boxes.

The see through material allows easy identification of the type and size of the gloves inside the dispensing box.

Dimensions are 10"w x 3.75"d x 5.5"h

WIRE GLOVE BOX HOLDER BHW501

The **BHW501** is a simple, yet sturdy design with white enamel coated wire to accommodate most glove boxes. It can hold one box horizontally or two boxes vertically.

The open design at the front and top allows easy identification of glove type and size, and also for easy refilling.

Dimensions are 11"w x 4"d x 4"h

All mounting hardware
is included for one-step
easy installation.
